

COVID-19 PROCEDURES & CHANGES

01

Lobby is closed, with the exception of one parent allowed for ages 5 and under. Front desk will assist by email or phone only.

02

Dance rooms have grids and each dancer stays in their own square. Physical distancing is enforced.

**Our dedication to fun,
healthy, safe dance
lessons will never change!**

03

Dancers have their own prop bags with props for class that are only used by them!

04

More combo classes added to the schedule so there is less switching of classes, less exposure to different groups of kids, making it easier to drop-off students since the lobby is closed.

MRD will follow all guidelines set forth by the MI OSHA and will make adjustments as needed.

05

Dancers' hands are sanitized before and after class. Hand sanitizer is easily found throughout the studio.

06

Masks are required for all dancers in class and the common areas.

07

Time is given in-between each class for thorough cleaning and sanitizing.

08

All staff have temperature checks and a health screening before teaching.

09

Monitors and iPads have been added to all classrooms. Classes can be Zoomed for anyone that would like to stay home instead of in-person classes. Parents will be able to watch classes once a month from the cameras in the classroom.
