CLASS DESCRIPTIONS

Ballet – We combine Cecchetti, Russian and French styles of ballet to accomplish a class with proper technique and body placement. We teach classic Ballet to achieve a very fulfilling dance experience. Students learn discipline, grace, confidence, proper posture, and technique while on the Ballet barre, engaging in center work and going across the floor.

Jazz – A fun style that teaches technique and can really enhance a dancer to have great abilities with the stretching, steps, leaps and turns that Jazz is known for.

Jazz/Poms - Includes Jazz but has a concentration on strong arms for pom-poms and sharper movements. This style is often seen with school and sports dance teams.

Tap - Tap is a very enjoyable form of dance that focuses primarily on the feet. The dancer makes sounds with the taps, almost as if playing a musical instrument, they learn to count music and feel the rhythm.

Hip-Hop - This popular and energetic class form of dance allows dancers to perform with freedom of movement while adding in their own personalities. This class uses the latest trends and music to create an age appropriate class that builds self confidence and coordination.

Acro - Acro works on flexibility, stretching and tumbling skills. This is a great class to work on handstands, cartwheels, forward rolls, and all things tumble!

Musical Theater - This class focuses on the ability to act and dance simultaneously and performs theater style dances. Great for enhancing performing skills and showmanship.
